CERTIFICATE

Unis Group B.V.

Has balanced 1.083 tonnes of CO₂ equivalents in the year 2023

With:

VCS REDD+ Forestry credits

Anthesis Group invests in carefully selected carbon projects which combine CO₂ reduction and/or sequestration solutions with wider social and environmental additional benefits. These socially progressive projects improve the quality of life of people who are threatened by the impacts of climate change. As such, they are a powerful tool for sustainable development.
